

Are you a Black Cancer Patient or a Relative of one?

PINPOINT **Research Study.**

**Empowering Black Patients
Overcoming Racial Barriers**

THE STUDY

- We want your opinions on the barriers to accessing high-quality cancer care
- Attend a 1.5-hour virtual interview where you will view a sample of the intervention and complete written or online surveys.
- Participants will be compensated for their time
- Conducted by Dr. Anita Kinney at the Rutgers Cancer Institute of NJ at 195 Little Albany St., New Brunswick

Join Project PINPOINT
Help us connect Black patients to life-saving cancer treatments!

ELIGIBILITY

- Black or African American
 - Diagnosed with cancer
- OR**
- Their spouse, blood relative, or caregiver

THE GOAL

- Reduce racial disparities in medicine
- Improve Black patients' access to high-quality cancer treatment
- Provide educational tools and cancer support resources
